## The Grant Scheme

Micro Capital grants between £200 and £1,500 are available to rural community-led, voluntary organisations for projects tackling issues of local poverty and / or social isolation. Projects must focus on one of the following three themes:

- Modernisation (of building(s) / assets)
- Information Communication Technology (ICT)
- Health and Wellbeing

The Rural Micro Capital Grant Scheme can offer grant aid between £200 and £1,500 (the maximum available grant) up to 85% of the total eligible cost of your project. **NB:** The total project cost must not exceed £3,000. Match funding for your 15% must be in the form of a 'cash' contribution. Labour or 'in-kind' contributions will not be accepted.

In order to ensure that as many groups as possible get the opportunity to benefit from this Scheme, organisations can only make **one** application to the Scheme. In the event of the call for applications being over-subscribed, preference will be given to applicants who did not receive funding through the RMC GS 2016 pilot, RMC GS 2017 and RMC GS 2018.

## Annex 3

**Tackling Rural Poverty and Social Isolation Framework**

The Framework focuses on three Priority Areas for Intervention, namely Access Poverty, Financial Poverty and Social Isolation, and aims to support measures designed to address these priorities in rural areas. It is recognised that there is potential for significant overlap between the three priority areas and that individual measures may address more than one priority area.

- **Access Poverty** - this priority aims to improve access to key services for vulnerable rural dwellers by supporting interventions which;
  - Improve urban-rural linkages (e.g. through the provision of better transport and broadband services etc.);
  - Improve access to key services (e.g. healthcare, education and training, leisure facilities, library services, advice services, childcare etc.).
  
- **Financial Poverty** – this priority aims to address financial poverty among vulnerable rural dwellers by supporting interventions which:
  - reduce household expenditure or other living costs (e.g. transport costs);
  - increase household incomes; (e.g. through improved employability, employment opportunities, entrepreneurship, increased benefit uptake etc.);
  - address issues relating to the additional costs faced by people living in rural areas (e.g. fuel costs);
  - address the barriers to escaping financial poverty (e.g. low qualifications, low skills, lack of access to affordable childcare, lack of access to quality jobs, disengagement, lack of access to information and advice, poor health etc.);
  - help alleviate the effects of financial poverty (e.g. food poverty, health problems, obesity among children, debt etc.).
  
- **Social Isolation** – this priority aims to address social isolation among vulnerable rural dwellers by supporting interventions which:
  - promote positive mental health and wellbeing;
  - increase opportunities for social engagement (e.g. social activities, sport and leisure activities, cultural activities etc.);
  - provide support to groups at risk of social isolation (e.g. farmers, older people, people with disabilities, disengaged youth, etc.).
